ANITA WHITNEY JAILED IN S.F. RIOT

MOB STORMS OFFICES OF CONSULATE

SAN FRANCISCO, July 27.—(U.P.)—Anita Whitney, fiery white-haired champion of Communism, was arrested here today as a riot leader of a riotous demonstration before the Chinese consulate.

The demonstration, participated in by more than 100 persons, was staged against "imperialism." Fiery speeches were made and a small riot ensued before police arrived.

Ten persons were arrested and taken to the city prison. Miss Whitney, eccentric, who was once sentenced to a prison term on an I. W. W. conviction, admitted her belief in Communism.

The mob had assembled quietly before the consulate and the outbreak of speech making materialized as if by magic.

Speeches were made against "imperialism" and fiery denunciations hurled against General Chiang Kai-shek.

Parade to Jail

Police soon appeared and dispersed the mob, arresting the alleged riot leaders and parading them several blocks to the city jail.

The other communists fell into line and followed to the jail doors. There were aged men and women—even a young girl sporting a brilliant red hat.

Carries Banner

At the front of the parade, escorted by police, was Miss Whitney. In her hands she carried a banner which read "Down With Chiang Kai-shek, the Lackey of the Imperialists."

Another banner read "Fight the Imperialist War Danger," and still others denounced the American Federation of Labor.

Pamphlets on similar subjects were handed out, containing a summons for a demonstration on Aug. 1, against the "imperialist war."

Denies Promise Made

Miss Whitney denied she had ever made any promise to have nothing to do with communists when she was granted a governor's pardon and released from prison.

She said that she valued her membership in the Communist party "above personal liberty."

She said she joined the demonstration because she was convinced that the United States, Great Britain, Japan and "other imperialist countries" are forcing Russia into a war to break up the Soviet Union.

"They are using China for a catspaw and a screen to hide the real motive," she said.

"Any small part that I may do to stop it, I shall do gladly."

Southern Team

To Meet Navy
On Gridiron

DALLAS, Tex., July 27.—The southern Methodist university football team will play the Navy gridders Nov. 15 at either Annapolis, Baltimore or Washington. It was announced here tonight by Dr. R. M. Blackwell, business manager of athletics at S. M. U.

The decision as to the city in which the game will be played will await the coming of Commander Jonas Ingram, director of athletics at the United States Naval academy, to Dallas during the S. M. U. coaching school next month.

200 Periled In Thunder Storm

MATSUMOTO, Japan, July 27.—(U.P.)—Two hundred mountain climbers were imperiled here today by the worst thunder and electrical storm in years in the Japanese Alps.

BANK SUSPECT BELIEVED SEEN IN RENO

Wants Her Pay

LELICE SENCION of New York, above, thinks that Lieut. Henry Guilmette, paymaster of U. S. cruiser Richmond, should be made to pay her \$100,000 for breach of promise. He remembered his wife and children after riding the rosy clouds of romance, she charges.

CHINA PEACE ACT FAVORED

NANKING, China, July 27.—(U.P.)—The suspension of United States Secretary of State Henry L. Stimson and China peace negotiations, with the Chinese government, was favored today by the National government of the Republic of China.

An informal announcement of the government today said that the Chinese minister at Washington, Chen Williams, has been instructed to accept an offer by the United States to mediate the Chinese-Russian dispute, according to the restoration of the "status quo ante" of the Chinese Eastern railway.

New Trial Denied In Harbor Suit

MARTINEZ, July 27.—A motion for a new trial in the case of Southern Illinois against the Port of Richmond, Tacoma, corporation, and the Port of Tacoma, was denied yesterday by Superior Judge H. V. Meyer.

Quilted to be acres of valuable tideland properties was sought by the plaintiff under old surveys. Several weeks ago, judgment was given in favor of the Port of Tacoma and Port of Richmond corporation.

4 Weeks Needed To Complete Road Work In Pinole

PINOLE, July 27.—The new state highway through Pinole will be practically completed and open to traffic within four weeks, according to J. Sorenson, engineer.

Traffic through the town is now shifted over the center strip of the highway, ten feet wide. Concrete is being poured at the rate of 300 yards daily. The south side of the roadway will be constructed next. After which the north side will be completed.

PLANE HUMS ON IN 3RD WEEK

ST. LOUIS, Mo., July 27.—(U.P.)—Off on its third week in the air, the St. Louis Robin maintained its assault against time 3000 feet above Lambert St. Louis field tonight, apparently as fresh as the day it roared aloft, July 13.

Dale Jackson and Forrest O'Brien, completed their 32nd consecutive hour at 11:47 p. m. C. S. T. bettering by more than four full days the record of 216 hours that confronted them at the outset of their flight.

It was an eventful day for the Robin and its crew, beginning almost before dawn with the assurance from O'Brien that he believed the Curtiss Challenger air cooled motor "is running just as good as it did the day we took off."

Then at 7:17 a. m. the trim orange plane rounded out a full two weeks in the air, 3000 feet above the field.

A few moments later came word from Houston, Tex., that the Billion Dollar City, aloft 233 hours, had been brought to a dead stick landing by its pilot, G. L. Loomis and Joe Glass, because of a damaged piston rod.

Word was immediately flashed aloft to the Robin that it had shaken off its most serious contender for endurance honors, and the Robin crew promptly sent down this message to the ground: Houston crew:

"Sure sorry, boys. We were enjoying the race. Sorry you were forced down. Better luck next time."

Notes Dropped

Assurance that all was well on the Robin came when Jackson swapped low over the airport and dropped the following notes, the first from O'Brien, then asleep.

"Well, hello, everybody. How is everyone down there? OK up here. We feel just fine after two weeks in the air. I believe the motor is running just as good as it did the day we took off. Just getting nicely broken in. Well, Red is asleep and I think I will wake him up and get some sleep."

The two crew members so lightly in the release of the road, that the San Leandro fire department had to be called to fix the screwcase agent. When taken from the car, Williams had his right arm firmly grasped about the girl's body.

The two were taken to the Fairmont hospital in San Leandro. The girl was pronounced dead on arrival there. Williams was later taken to the College hospital here.

Williams was recently employed at the El Nido Inn as a drummer in the orchestra. There he met Miss Charlesworth who was visiting her aunt, Mrs. J. B. White, 1602 San Mateo avenue, Richmond Annex.

She had planned to return to her home in Sacramento tonight.

According to police reports, Nelson's motorcycle collided with a car driven by Arthur Marchant, 16 of 1616 East Twentieth street at Seventh avenue and East Fifteenth street.

Nelson was taken to the hospital and hospitalized for several days.

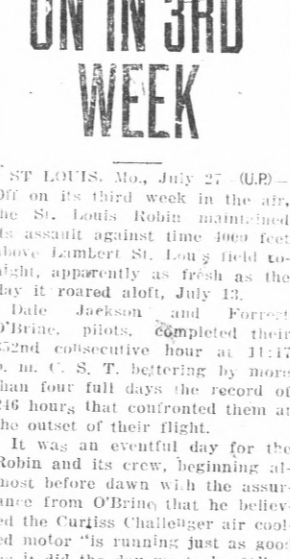

Local Man Hurt
In Auto Crash

ROBERT NELSON, 39, 448 Nineteenth street, Richmond, suffered slight injuries received in another mobility accident in Oakland yesterday.

According to police reports, Nelson's motorcycle collided with a car driven by Arthur Marchant, 16 of 1616 East Twentieth street at Seventh avenue and East Fifteenth street.

Nelson was taken to the hospital and hospitalized for several days.

They've Just Been Married

MATT KING, Broadway dancer with his bride Elena Meade, a former show girl just after they were married in New York City.

At the same time, some of the (Continued on Page 4)

DEATH TAKES PIONEER HERE

Death took another pioneer of Richmond yesterday afternoon with the passing of Frank Xavier, 228 South Eighth street.

Xavier came to California in 1865 and was employed on a large ranch near the site of the city of Richmond. He had lived in this vicinity ever since then. Until ten years ago he was a relative in ranching, but retired.

Deceased was 87 years of age and was a native of Portugal. He leaves three sons, Tony, Colista and Daniel.

Funeral services are pending at the Berry Curry chapel here.

Rev. Pratt Named On State Board

Rev. A. Alden Pratt, pastor of the First Presbyterian church of Richmond, was yesterday named a member of the correspondence committee of the Presbyterian synod of California at the annual convocation in Santa Rosa.

Committees were appointed by Rev. Frank M. Shibley, D. D., of Oakland, newly elected moderator of the synod.

ARREST IN ILLINOIS REPORTED

MARTINEZ, July 27.—(U.P.)—The arrest of a man in Illinois, reported in a dispatch as under arrest for the LaMar, Colo. bank robbery a year ago, police reports from Reno to Sheriff R. R. Veale here said that he and a woman companion were identified today in that city by a service station attendant who claims to know De Moss.

The Reno report said that De Moss, 42, was a blond, and accompanied by a woman companion in a green dress, left Reno about 2:30 p. m. today in a green sedan.

At the same time, some of the (Continued on Page 4)

FATHER OF SIX HELD ON RUM, DELINQUENCY CHARGE

Two Richmond men are being held in the city jail on charges of possession of liquor, contributing to the delinquency of minors, and carrying concealed weapons, while local authorities are preparing to turn the case of the children over to the county probation officer.

Donald Davis, 563 South Eleventh street, is being held in jail on charges of possession of liquor and contributing to the delinquency of his six minor children, while E. P. "Tex" Howard, San Pablo Creek, who is alleged to have been making a delivery of liquor at the Davis home as officers were there, is being held on a liquor possession charge as well as one of carrying concealed weapons.

Capt. L. E. Jones, headed a squad, which raided the Davis home yesterday afternoon and, according to police reports, found a gallon of "jackass liquor." Davis was not at home at the time, but

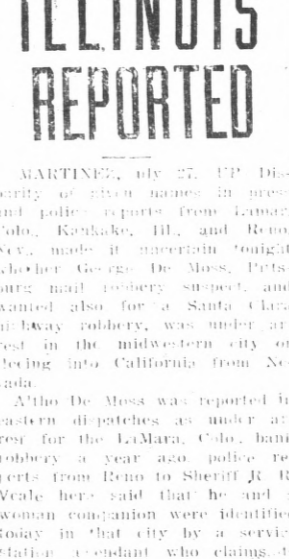

according to his wife would return in a short time.

While officers were waiting at the Davis home, they reported that Howard drove up in a large sedan and was pointed out to them as the man who had been delivering the liquor to the Davis home.

When officers went up to the Howard car they saw a gallon jug of what appeared to be liquor in it, they reported. As officers attempted to arrest Howard he is reported to have reached for a gun concealed under his coat. Officers disarmed Howard, and took him to the police station.

According to the arresting officers' report conditions at the Davis home were found "deplorable." The children, ranging in age from 15 years to 14 months were reported as unruly by the officers, who reported the conditions in the home to the county probation officers.

BRIAND TO BE FRENCH PREMIER IN NEW CABINET

PARIS, July 27.—(U.P.)—The government of France, at a critical period in her post-war development, was entrusted again to Aristide Briand tonight.

Resignations of Premier Raymond Poincaré and his cabinet were presented to President Gaston Doumergue this morning. Briand, refusing to continue in office because of his health.

President Doumergue conferred with political leaders during the day, and tonight invited Briand to form a new government.

Briand accepted.

The Re-Cast Cabinet

It was certain Briand would present the Poincaré cabinet, in which he was foreign minister. The government has been meeting with increasing opposition from the parties of the left, and it was a foregone conclusion that Briand would form a cabinet which would be sure of more support through the inclusion of representatives of the radicals and radical socialists in its membership.

To Be Premier

Briand undoubtedly will be premier and foreign minister. He is the French expert on foreign affairs and has been foreign minister in every government since that of Paul Painlevé in April 1925, with the exception of the short-lived Herriot government, which lasted three days in April 1924.

Although the important post of minister of the interior is coveted by the various parties, it is likely to be retained by Andre Tardieu, who has served with heretofore capability.

May Delay Conference

One of the important matters on the agenda in government circles is a delay in the coming international conference on the Young plan, foundation, Rhineland expropriation and other matters. The conference is scheduled to start at The Hague Aug. 5 or 6.

President Doumergue selected his cabinet and got a vote of confidence from the chamber of deputies, as well as prepare to reorganize France at the conference, which he undoubtedly will do. Therefore, a delay of several days in the opening of the conference probably will be necessary.

Refrainment Snubbed

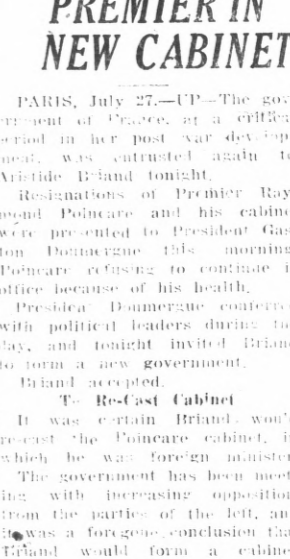

The retirement of Poincaré who has been premier since July 27, 1926, came unexpectedly. The report that he was going to retire, after having served as premier for three years, was a surprise.

Poincaré, 68, of the center-right, had been premier for three years. He was elected to the post of premier in 1926, after having served as minister of the interior.

President Doumergue announced that the political leaders to the police during the day he accepted the resignation of Poincaré and his cabinet.

Apparently all agreed with Briand. Among those called were: Louis Doumergue, president of the Senate; Ferdinand Souffron, president of the chamber of deputies; Lucien Hubert, and Paul Boncour, presidents of the foreign affairs committee of the Senate and chamber, respectively; Edouard de Laizer, president of the Radical and Radical Socialist party; Louis Marin, leader of the Republican-Democratic union; Leon Blum of the Socialists; and Henry Franklin-Bouillon, of the Unionists and Socialists left.

KAMB STARS AT BAT FOR FIREMEN 9

Added and jettied by the vocal chorists of Patriotic O'Rourke and Edward Burger, the Insurance Agents ball team yesterday afternoon won the Richmond Commercial "Twinkle" league championship by a score of 6 to 3 at their first street ball.

And fans, "twins" ball game! From the time the first ball was pitched to the last man fanned, the game was filled with heart thrills, action, romance and base hits.

The game was originally scheduled to start at 7 o'clock. As 7:15 had rolled, the crowd began to grow. The game started at 7:30. The game was a real one.

At 4:25 the Moore third baseman for the Agents arrived fashionably late. Condon and Louis Davis immediately went into a huddle in the middle of the field and decided upon a lineup while the fans shrieked for action.

The contest was on.

Jack Buz, catcher for the Agents had evidently placed his rabbit foot in his hip pocket and hoped for a horseshoe around his neck. Buz pitched one whole game and he had more than enough to go on.

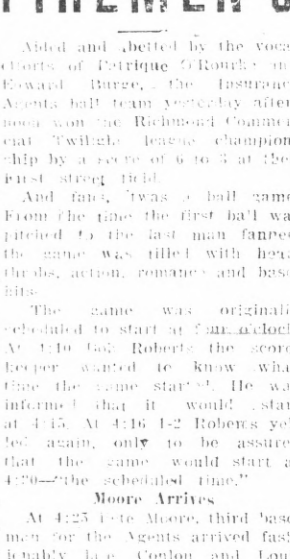

San Miguel Landed

San Miguel, outfielder for the Agents, played breaks up baseball. Several times his brawny plays came runners at the plate. A few home runs, and a few more points, and San Miguel will be among those present in the big league.

Leo St. John, fireman twister, pitched a ball and allowed a hit. But the Agents were able to bring across their scores when they needed them.

One of those plays you read about occurred in the third inning. Buz pitched a fielding error, and went to third when Kamb, outfielder, Kamb was caught out of second. Moore, the fireman, was caught out of third. (Continued on Page 8)

Motorcyclist Hurt In Accident Here

E. P. Hagenbocher, 157 Second street, received painful bruises and a cut on his chin that required six stitches to close when his motorcycle was riding collided with an automobile driven by L. M. Bonneville, 250 Fifth street. The crash occurred at Fourth street and Bluff avenue last night.

Bonneville took Hagenbocher to the Emergency hospital where he was treated by Dr. C. S. Abbott.

Driver Faces Drunk Charges

George L. Bruns, 1080 University avenue, was arrested by Richmond police on the San Rafael ferry road on a charge of driving while drunk, and possession of liquor.

According to police reports an automobile driven by Bruns crashed into one driven by M. P. Cordova, 516 Lincoln avenue, San Rafael.

Weiner Roast Held By T. F. B. Juniors

The Fraternal Brotherhood Juniors enjoyed a weiner roast last night in Alvarado park. Dancing and games were enjoyed by 40 members of the lodge. Mrs. Letha Osborne, superintendent of the Junior lodge, was in charge of arrangements.

For safety's sake, warns L. C. Evans, general service manager for the National Automobile club, railroad crossings with grade approaches should always be crossed in second gear. Many accidents are caused through stalling of the engine through excessive pulling at low speed across railroad crossings.

Those wishing to get a demonstration of the new car may do so, according to officials of the Kratzler agency.

*
CARS IN U. S.

Over two thirds of the automobiles in the world are registered in the United States, according to the California State Automobile association.

The Pontiac party, comprising Patterson, Lloyd Prouffled, Stockton manager for the California Automobile association, Ralph Vardley and L. V. Patterson, left Stockton early Sunday morning. The party carried them over the Sierras, across the Nevada plains and through the great salt beds to the Utah metropolis and return—1574 miles in 48 hours. A steady pace was maintained with time out for meals, sleep at Salt Lake, a trip about the city itself, and ample time for photographs along the way.

The rule for overtaking a possible hazard has been amended to substantially provide that the driver of a vehicle intending to overtake a vehicle on the left side of the highway must first determine if oncoming traffic is at sufficient distance ahead to permit such overtaking, and passing to be made without unduly delaying and such overtaking vehicle return to the right side of the highway before moving within an authorized interval of time approaching from the opposite direction.

Uneven tire wear can affect the rear as well as the front tires, although this condition is usually thought of in connection with the latter. Loose lugs will permit rim to play from side to side, increasing the road friction and greatly shortening the life of the tire. The careful driver will occasionally check the tightness of the rim bolts.

"The A. A. A. believes that Congress should increase the present annual federal aid appropriation of \$75,000,000 to a possible maximum of \$125,000,000. Under the present policy of making the appropriations two years ahead of the regular session of the Senate, the first congress will turn its attention to the appropriation for 1932 and 1933."

THOUSANDS of people who

THOUSANDS of people who drive the Twin-Ignition-motored Nash "400" Ambassador have discovered that the most luxurious type of motoring is not necessarily prohibitive in price.

Obvious to every eye is the style and thoroughbred character of this charming motor car. There is beauty in the purity and grace of every line and curve. There is luxury in every item of interior dress and decoration, from inlaid walnut paneling to the deep, overstuffed cushions upholstered in fabrics restricted to fine car manufacture.

And equally obvious, to those who know good motor cars, is the high quality of "400" engineering and Ambassador performance. Here, in this moderately priced car, is the "twin-ignition" motor, the year's most notable achievement in power. Another very attractive "400" fea-

Delivered, Fully Equipped, Price Range of 23 Nash "400" models \$1066 to \$2454 includes Touring, Roadster, Coupe, Cabriolet, Victoria and Sedan models

And the Ambassador is one of the easiest riding cars ever built. The wheelbase is 130 inches. The springs are built of special process alloy steel, individually designed for Ambassador size and weight, and *outboard mounted*. Houdaille double action hydraulic shock absorbers are standard equipment.

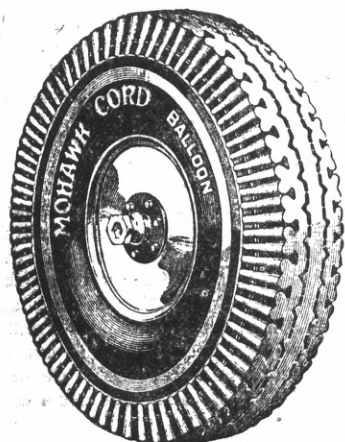

Other features of convenience and quality which Nash volume makes possible for you to have at Ambassador price, are Bijur Centralized Chassis Lubrication and Chromium-plated bumpers front and rear—at no extra charge.

Volume and its manufacturing economies plus Nash engineering skill make possible this value. More than 168,000 Nash "400s" were built and sold in the 12 months (just ended) since the "400" introduction.

range of 23 Nash "100" models \$1066 to \$1495. Coupe, Cabriolet, Victoria and Sedan models.

U. S. DOUBLES TEAM BEATS FRENCH

Continued from Page 1)
Frenchmen from the first service. Only in the second set, where Borotra and Cochet rallied to take five games in a row, were the Americans ever in danger.

The play of the French was marked by the individual efforts of Cochet. On the other hand, Allison and Van Ryn shared honors almost equally on the American team, pairing together beautifully to hold the Frenchmen almost at their mercy.

T. S. Wins
The first service of the match fell to Allison and the American started the drive with a victory. Borotra served the second game and the United States made two in games, the French winning on one point on the service.

France broke through Van Ryn's service to win the third game before the Americans ran out the set, 6-1.

In the second set Van Ryn and Allison built up a 5-1 lead in almost the same manner as in the first. Borotra and Cochet then braced and won five in a row before the Americans could reach a single set point.

With the game score 6-5 in their favor, the Frenchmen assumed a 15-40 lead on Van Ryn's service and seemed certain to win the second set. Allison's two fine placements and Borotra's three winners won that game for the Americans, however and they ran out the set, 8-6.

Americans Break Through
In the third set, Cochet served until the ninth game, when the Americans broke through on Borotra. Van Ryn served the final game of the match.

The Americans found early that the weak spot in the French defense was Borotra's backhand at which a terrific driving attack was launched.

Cochet was far from the super-machine that beat Tilden Friday and the general unsteadiness of Borotra appeared to worry him.

The one thing in favor of American chances in the final singles matches tomorrow will be the fact that Tilden and Lott will be fresh for their match with men who were thoroughly exhausted by their strenuous play today.

It is doubtful that this will be sufficient to swing the tide to America however. Tilden is conceded a very good chance to beat Borotra, but Lott is considered far out of his class in playing Cochet.

Tilden to Play
The only activity of the American singles players today was a doubles exhibition match against

BANDIT SUSPECT REPORTED IN RENO

(Continued from page 1)
disparity of even names in members of the Flegle family, arrested in Reno, was cleared up by news from La Mar that William Flegle, known here as William Holden, also is known by the name of Jack.

Joseph Allen, a known associate of William Holden, is an inmate of the state prison at San Jose almost equally on the American team, pairing together beautifully to hold the Frenchmen almost at their mercy.

Allen, Holden and DeMoss are reported to have been sought by authorities of this county as suspects in the recent southern Pacific mail robbery near Pittsburg.

PAIR HELD IN ILLINOIS CITY
KANKAKEE, Ill., July 27.—(AP) —Stanley George Olderman, 41, and Mar. 60, was waiting here to catch the train for a job in the city of Chicago. DeMoss and Holden, 31, were in the car with them when the LaMar bank robbery took place in which four men were killed. DeMoss and Flegle were arrested here today. They will be held in custody.

MURDER CHARGE TO BE FILED
LAVER, Cal., July 27.—(AP) —Stanley George Olderman, 41, and Mar. 60, was waiting here to catch the train for a job in the city of Chicago. DeMoss and Holden, 31, were in the car with them when the LaMar bank robbery took place in which four men were killed. DeMoss and Flegle were arrested here today. They will be held in custody.

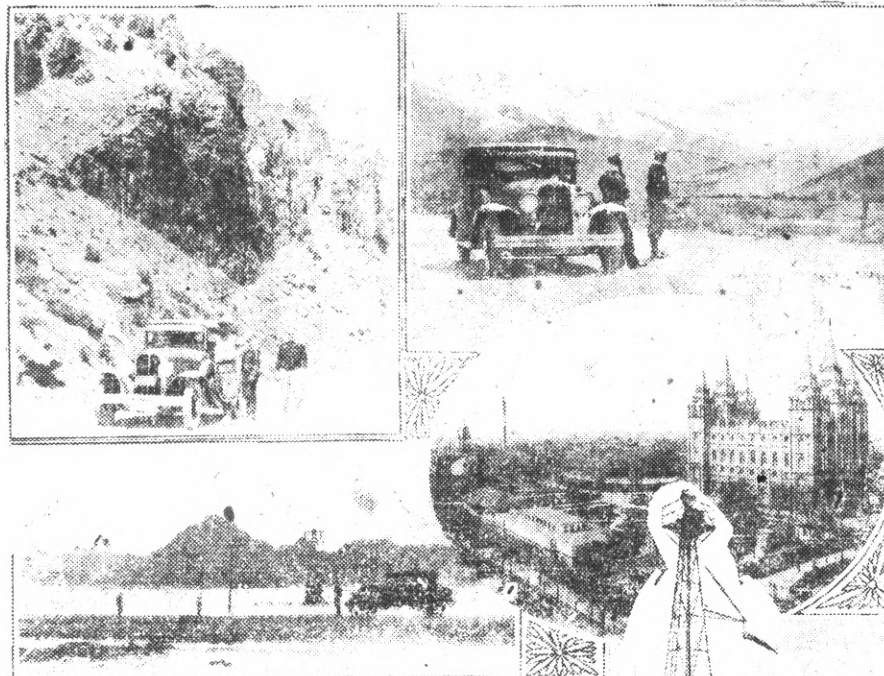

BRASHEAR RECOVERS
T. G. Brashear, has returned to his home here after receiving treatment at the Letterman hospital in San Francisco.

Jacques Brugnen and Christian Bonuss, other members of the French Davis cup team.

The Frenchmen won the first set, 7-5 and Tilden and Lott took the second and final, 10-8. The Americans did not extend themselves, however, evidently conserving their strength for the final matches tomorrow.

Tilden's match with Borotra is to be the first tomorrow, making it likely that the score will be two all when Lott takes the court against Cochet in the final.

On Record Trip

\$35,000 ASKED IN AUTO CRASH

MARTINEZ, July 27.—Damages, aggregating \$35,000 were filed in the superior court here today as the result of an automobile accident at Cutting Boulevard and Forty-first street, Richmond, on June 29, this year.

Damages of \$20,000 is asked by Mrs. Zoe Stathis of Oakland, while her husband, George Stathis, asks \$5000. Steve Eliopoulos, a passenger in the Stathi car, asks \$10,000 damages.

Antone Ribarik of Richmond is the defendant. He was driving the second car that figured in the crash and is accused of negligent driving by the plaintiffs.

SELVESTER RETURNS
J. V. Selvester, Barrett avenue, and Mrs. Selvester, have returned home after a week's outing at Calistoga.

SPECIAL PISTON RINGS AID CHRYSLER

Perfect lubrication, which increases engine life, reduces maintenance costs and adds to the operating efficiency has been developed by Chrysler engineers in the '65' '75' and Chrysler Imperial cars after intensive study and research, according to Harry Curry, local Chrysler dealer.

Among the most important factors that determine the extent to which engine lubrication is efficient is the action of the oil in the cylinders. The engineers discovered that a special type of piston ring is required to insure against the loss of power, and at the same time keep the oil in circulation in the cylinders. After experiments of more than two years the tongue and groove ring used exclusively in Chrysler engines was developed. This ring, while allowing the free passage of oil over the walls of the cylinders also seals the cylinders effectively, making loss of compression impossible. It also has advantage over the old type of square sectioned ring by preventing accumulation of carbon in the piston grooves behind the rings. In addition it lessens the amount of "blow by" gases that escape the combustion chamber and into the crankcase through the piston rings. The Chrysler rings decrease the blow by more than 20 percent, according to experiments.

Faulty piston rings often are responsible for allowing water from the combustion chamber, gases and acids to creep through to the crankcase where they dilute the oil and corrode or rust connecting rods and other important interior parts of the engine. For every gallon of fuel consumed, approximately seven pounds of water is left in the chamber to pass through the exhaust. This comes from the fuel and from the air taken in by the carburetor. A striking example is found on zepplins which often carry as much as ten tons of gasoline and use condensers on the exhaust flues for collecting this waste water. The loss of weight from the use of fuel in the tanks is compensated for by the water otherwise the lack of weight would cause the ship to rise to an unmanageable height.

In the big Chrysler laboratories at Detroit the engineers have called their lubrication observations by the "stroke-scope," a novel type of machine that makes it possible to examine the action of the oil while the engine is operating at various speeds. The illusion given by this machine suggests that the pistons are stationary, but in reality they are moving up and down the cylinders so rapidly it would be impossible to follow them by the eye. The oil, however, can be plainly seen flowing from the bearings and being sprayed over the cylinder walls. Any defect in the lubrication system would be detected immediately.

In all Chrysler models, oil and gas vapors are carried to an outlet pipe connected with the carburetor. There they are burned, thus promoting economy of operation and additional power.

Shifting Tires Prolongs Wear

If the front tires show a slight uneven wear and you do not want to go to the expense of having the wheels checked up, it is advisable to change the tires around from one wheel to the other. More mileage will be obtained through this procedure, according to the free emergency road service of the California State Automobile association.

Bus Lines In U. S. On Big Increase

At the start of the current year there were 92,000 passenger-carrying buses in operation in the United States, according to the National Automobile club. The railways are rapidly substituting these buses for train service on short hauls.

CHEVROLET CO. HEAD LAUDS CHANGES

The world is changing rapidly, and the reason for this metamorphosis is due chiefly to transportation development. Few stop to consider the progress of methods of transportation since the beginning of the twentieth century.

Nearly twenty years ago, T. S. Doby, who is now a Pacific coast representative for the Chevrolet Motor company, became intensely interested in aviation. The thrills and dangers of the air stirred Doby's blood and he was one of the first to conduct tests in the air. Those were the days when the pilot sat on a jump seat forward, with a tiny wheel to manipulate the plane. Despite these crudities, Doby and other pioneers, shot their trail ships into the sky-lanes and charted the route for the fast ships of today.

The feats accomplished in Doby's day were regarded as remarkable, but they pale in comparison with the endurance flights of the moment. With the modern tri-motored planes that carry passengers and freight on split-second schedules; with beacon lighting the way; with cities and towns providing markings and landings of all sorts, and with the nation as a whole air-minded, the things which Doby and his fellows accomplished seem miraculous.

New Luxury
Coincidental with aviation has been the change in steam-haul transportation. In the days of the "Show-Boat," the old stern-wheeler poked their noses into the muddy banks of the Mississippi and threw a gangplank on land. They churned their way down the old river and many are the tales of races held on the brown river. The old St. Louis, which plied the picturesque Mississippi, is now replaced by a modern steamer which speeds down the Mississippi and is tuned to the speed tempo of the day. The colorful stern-wheeler is gone and in its place are river steamers which are the quintessence of luxury, speed and convenience.

The air-lanes have seen Doby's trail crafts go into oblivion; and the picturesque stern-wheelers are no longer seen on the water ways of the country. These changes are striking, but they are no more striking than the change in the automobile.

Changes Made
Consider the Chevrolet of 20 years ago and the Chevrolet of today. The 1929 six cylinder Chevrolet with its various body styles, its upholstery in harmonizing colors; its carpeted tonneau; dome lighting, smoking cases, luxury type spring cushions on rear seat and adjustable driver's seat is a striking contrast to the open style, weather insecure, jouncing car that traveled solely over dirt roads.

The development of the automobile forced the construction of new highways which reach the scenic spots of the nation. Eventually the air also will be charted and rights in the air will be determined. The river steamers have forced towns and cities to build accommodating docks. Transportation changes have been the cause of all these improvements.

The Golden Rule Chevrolet company, Fourteenth street and Macdonald avenue, are agents for the Chevrolet six.

T. J. Hathaway Feted At Party

T. J. Hathaway of 542 Fifth street was surprised at a birthday party by a group of friends last night in his home.

Whist was played with prizes being awarded to Mrs. Daisy Mayo, T. J. Hathaway, Mrs. E. Kerns, Mrs. C. Gilmore, Mrs. Mildred Noylon, A. L. Hathaway, Mrs. Blanche Harley and E. Allen.

Refreshments were served. Those enjoying the evening were Mr. and Mrs. Harold Noylon of Reno, Mr. and Mrs. E. Allen, Mr. and Mrs. W. B. Mayo, Dr. and Mrs. F. R. Harley, Mr. and Mrs. A. L. Hathaway, Mr. and Mrs. W. Noylon, Mr. and Mrs. E. Kerns, Mr. and Mrs. C. Gilmore, Mrs. W. E. Mayo and Mr. and Mrs. T. J. Hathaway.

Second Gear On Hill Saves Car

There is an old rule of driving in the hills which works as well today as it has in the past. This rule states that one should go down grade in the same gear that was used in coming up. Modern power in breaks has somewhat modified this theory but on long stretches of mountain road the driver will find his difficulties alleviated and his brake linings

FOUR TEAMS TO PLAY GAMES TODAY

Four Richmond baseball teams will go into action today.

The main attraction of the day will be the game between the Richmond and Oakland Elks at the First street field at 2:30. Games will precede the game which will be the second in the Elks' league. Richmond was its first game last Sunday from the San Francisco Elks.

Dutch Kotler will be on the mound for the Richmond team.

The San Pablo and Richmond Old Fellows will tangle at the San Pablo park this afternoon. Carl Kamb is slated to pitch for the Linkmen.

Thomas Motors will meet the Tenth Street Merchants of Oakland at Bishrod Park, diamond No. 1 at 2:45.

The Schneider Tailors of Richmond will play the Chris Nelson Painters at Kennedy park, Berkeley at 2:30 this afternoon.

Last longer if he will use discretion and his second gear.

for Economical Transportation

Another Record!

over
800,000
New CHEVROLET Sixes
on the road since Jan. 1st!

Today's Chevrolet is scoring a huge nationwide success because it represents one of the most sensational achievements in automotive history—a Six in the price range of the four.

The Chevrolet six-cylinder engine delivers its power freely, quietly, and easily throughout the entire speed range—delightfully free from annoying vibration and rumble. Combined with this remarkable six-cylinder smoothness are equally remarkable speed, power and acceleration—and an economy of better than twenty miles to the gallon.

In addition to such sensational performance the Chevrolet Six offers the outstanding advantages of Bodies by Fisher. And no car ever provided a more impressive array of modern convenience features—adjustable driver's seat and VV one-piece windshield in closed models; easy action clutch and gear-shift, ball bearing steering, and instrument panel complete even to theft-proof Electrolock and electric motor temperature indicator!

A Six In The Price Range Of The Four

AWAY AHEAD THEN—FARTHER AHEAD TODAY

APRIL 5 1924
"Adhering strictly to the soundest principles of design, Chrysler engineers have, nevertheless, developed and applied these principles in a manner just as revolutionary as the application of steam to ocean-going ships. + + We believe that the creation of the Chrysler accomplished an all-important evolution in motor cars no less valuable than the original invention of the automobile."

WHY CHRYSLER CAN'T BE COPIED

For five years the motor car industry has striven unceasingly to emulate and overtake Chrysler—yet all its best efforts and most persistent ambitions to that end have fallen far short of their goal.

As time rolls on, it becomes more and more manifest that Chrysler performance can't be copied—that only Chrysler engineering and Chrysler manufacturing methods can produce Chrysler results.

Chrysler results are uncopiable because Chrysler engineering is of an entirely new school of thought, because Chrysler ingenuity is free from the hindering and hampering influence of out-dated and hide-bound traditions.

Chrysler results are uncopiable, too, because Chrysler has the great manufacturing advantage of plant equipment as new and up-to-date as the Chrysler car itself.

So Chrysler goes marching on, strengthening its leadership, maintaining a wide margin of superiority in performance—demonstrating a virile fleetness, an eager spirit, an unwavering stamina and an unruffled smoothness other cars find impossible to equal or even approximate.

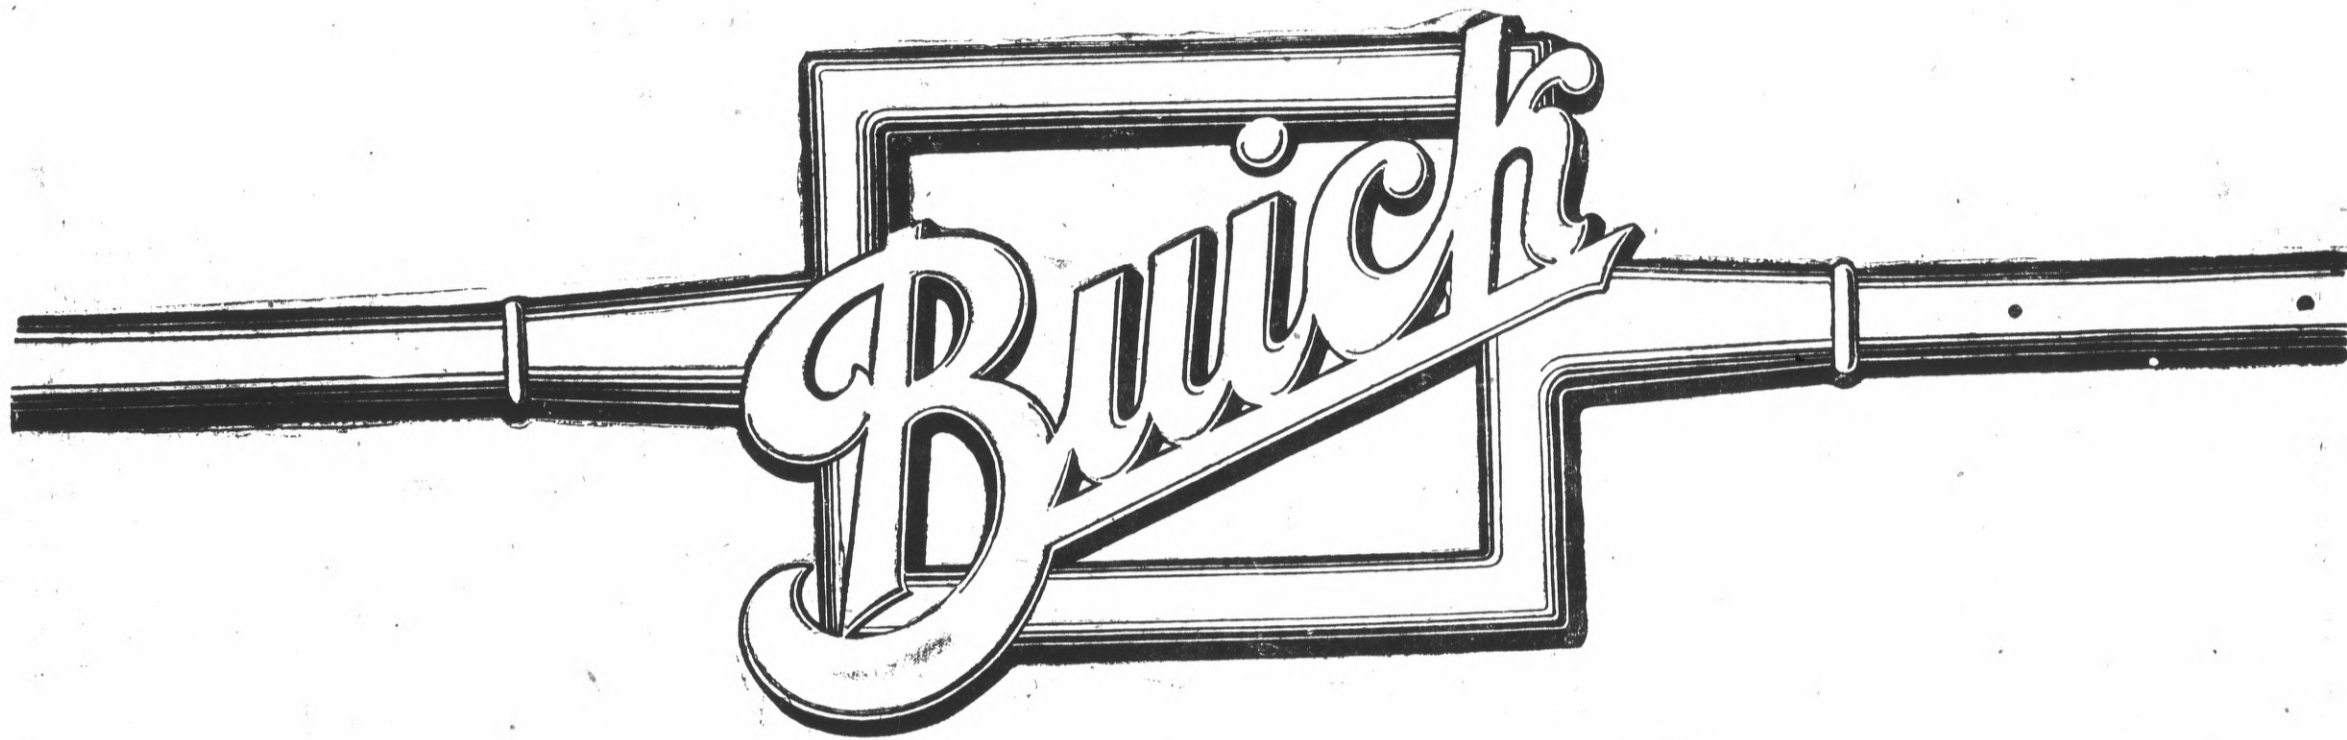

CHRYSLER "75"—\$1535 to \$1795—Eight Body Styles. CHRYSLER "65"—\$1040 to \$1145—Six Body Styles. All prices f. o. b. factory. Chrysler dealers extend convenient time payments

Real Estate For Sale

Paulsen's TIPS!

YOU DON'T NEED A GUN TO STEAL THIS, \$300 or \$400 WILL DO IT!
A warm cozy bungalow, on 35 foot lot, fenced. Good garage. House is plastered. 2 bedrooms, bath, living room, kitchen, wash room — Only 4 blocks from Macdonald Ave. Good neighborhood, east of 10th Street. Owner must have money. Will sell the home, and enough furniture to start with, for \$2250. If you have a moderate payment, come in and talk it over with us. We will refinance for you, and your monthly payments will be lower than rent. This is an exceptional deal for family of moderate means.

Real Estate For Sale

Now Is The Time To Buy Real Estate in Richmond, Either a Home Or As An Investment

Macdonald Avenue is now and will always remain the Main business street. I have several large lots only one, two and three blocks from it on both sides between 6th and 16th streets. Buy one and I will build a home to suit you, and sell it to you on easy terms, or cheap, for cash. Save time by walking to and from your work. They are sure to increase in value. This kind of property has made the greatest fortunes for many conservative investors.

A SPECIAL OFFERING

Owner having moved old house off of lot 50x112 1/2 ft now has gas, water and sewer mains in from front to back; also a good garage. Some fruit trees in back yard and two large palm trees in front yard. Located on 17th St. North, 2 blocks from Macdonald avenue. Price very low as owner needs money. Come and let me show you this lot and I will surprise at the low price. 50x112 1/2 So. Side of Bissell between 14 and 15 Streets. 75x112 1/2 West side of 14th Street, near Bissell Ave. 75x112 1/2 Northwest corner of 14th and Chanslor Avenue. 75x112 1/2 East side of 18th, between Bissell and Chanslor. Fine location for apartment house, or for 2 residences.

AGENTS TAKE CITY BALL TITLE

(Continued from Page 1)

plate, Paasch decided to steal home. He did, running down the line like a trucker after cars. He was safe by inches.

Ride Looms
A near riot almost occurred in the fourth inning. Greathouse singled. San Miguel bunted and Schreuder retrieved the ball, throwing it five feet over Grady's head. Greathouse continued his run home and San Miguel went to third. The umpires motioned Greathouse back to third and San Miguel to second.

Whereupon the Agents arose in wrath and descended upon Umpires Jack Shively and Walter "Sae" Gordon. The oratorical contest was on. Pat O'Rourke, who was among those present, was removed from the field, still crying that the Agents had been robbed. Pat was so enraged that he refused to buy peanuts for the scorekeeper and his assistant.

Davis If Able
The "cleared away" Greathouse lobbed on third and San Miguel scoring. Addison completed the play by letting the throw-in get away from him and Davis scored.

Jack Shively and Sae Gordon deserve medals of some kind. The two boys had close ones to call and they called 'em in an impudent manner that was almost a delight.

The Firemen scored one run in the first; one in the third; and one the fifth. Carl Kamb made four out of four.

Agents scored one in the first; three in the fourth; and two in the seventh inning.

A complete play by play account of the game will be found in another column of the RECORD-HERALD.

The box score:

THE MAN I LOVE WILL OPEN TODAY

"The Man I Love" the latest Paramount all-stalking picture opens at the Fox-California theater today with Richard Arlen, Mary Brian sings and they act the catchy, adventurous drama with delightful abandon and force. A superb cast, including Bacalano, Harry Green and Jack Oakie, assist the principals.

It is the first time that the screen has recorded the voices of Arlen and Miss Brian and their tonal charm equals their personalities. They are delightful. Miss Brian sings the theme song "Celia" with great effect and the incidental sounds and excitement are sure-fire. "The Man I Love" is romance in words, song and particularly, action.

The picture tells the story of a couple of youngsters deeply in love who go to New York to seek fortune. Although they are married, the temptations of the metropolis lead the boy astray and adventure follows adventure until they come together again. Bacalano, the brilliant Moscow Art theater artist is seen and heard in the motivating role.

Two comedy men, Harry Green and Jack Oakie, provide a continual ripple of laughter and the rest of the cast will their parts very well. "The Man I Love" is a full evening's entertainment. It is filled with youth life and adventure and William A. Well-man, the man who made "Ving" has earned new honors for his direction. A talking comedy "Don't Be Nervous" and Fox news, is also included on the bill.

Man's Life Saved By Barbed Wire

DECATUR, Ill.—Falling into a barbed wire fence lacerated the face, hands and body of H. L. Kintz, St. Louis, but it probably saved his life. His car skidded on a slippery curve, throwing King into the air. The fence lessened his fall and saved his life according to physicians.

River, Village Built For New Chaney Picture

Land that was recently a real estate tract became a brimming river for Lon Chaney's latest thriller of the screen. "Where East Is East," a Metro-Goldwyn Mayer sound synchronized production coming Tuesday to the Fox-California theater. A huge artificial river was built, with the replica of a Siamese village on its banks. Elephants, barges of wild animals, and hundreds of queer natives appear. The new story was directed by Tod Browning with Lupa Velez, Estelle Taylor, Lloyd Hughes and others in the cast. The first Our Gang talking comedy "Small Talking" is included on the bill.

Motorist Held On Rum Charge

Edward Olsen, 26, 2427 McKinley street, Berkeley, was taken to the El Cerrito city jail yesterday by Traffic Officer Howland Thullen on charge of having liquor in his possession. Thullen arrested the man when he stopped his car to light a cigarette. He had been driving on the street in a wobbly manner, according to the officer's report. Olsen is a carpenter.

Protect Your Furniture

A \$125 to Rid Your Home of Moths May Save You Hundreds of Dollars.

MORTEMOTH KILLS MOTHS

The gas from Mortemoth crystals not only protects your furniture for a long time, but contact with it kills all moths, their eggs and their dangerous larvae in furniture which is already infested.

The proper method of using Mortemoth crystals is to tie them in small sacks, and to place these sacks down in the channel of the piece, as deeply as possible, behind the cushions, so that, upon expansion, the gas will spread and fill the spring units in the back and in the bottom of the piece.

When the sacks are empty, fill them again.

PRICE \$1.25 PER BOTTLE
